EDUCATION

Federal University of Minas Gerais (UFMG) — Belo Horizonte, Brazil
Doctor of Medicine (MD) — Jul. 2021 – Jun. 2027

LICENSURE

United States Medical Licensing Examination (USMLE) Step 1: Pass — Mar. 2026
USMLE Step 2 CK: expected — Mid-2027

RESEARCH EXPERIENCE

Federal University of Minas Gerais, Department of Surgery — Belo Horizonte, Brazil
Undergraduate Research Fellow (Iniciação Científica), funded fellowship — Aug. 2026 – Present
Prospective clinical study evaluating breast sensitivity before and after mastopexy with implants using the mini-L technique. Principal investigator: Leandro Ricardo de Aquino Santos, MD.

Surgery Research Group — Brazil
Research Collaborator — Jan. 2024 – Present
Design and lead systematic reviews and meta-analyses in general, colorectal, and hepatobiliary surgery, carrying projects from question formulation and PROSPERO registration through search, dual screening, data extraction, and analysis in R. Methods span pairwise, Bayesian, and trial sequential meta-analysis, single-arm pooling of proportions, and synthesis of propensity score matched evidence. Coordinate multi-author teams across institutions, allocate work among junior collaborators, and carry manuscripts through peer review and revision. Mentors: Bernardo Fontel Pompeu, MD, and Sérgio Mazzola Poli de Figueiredo, MD.

Thoracic Surgery Research Group — Brazil
Research Collaborator — Jun. 2025 – Present
Lead evidence synthesis in thoracic surgery and lung transplantation, serving as primary analyst on most projects. Work includes survival analysis from reconstructed individual patient data in pleural mesothelioma, comparative studies of extracorporeal membrane oxygenation configurations, chest wall reconstruction, and the diagnostic performance of preoperative functional imaging. Collaborate with thoracic surgeons in Brazil, Europe, and the United States. Mentor: Rachid Eduardo Noleto da Nobrega Oliveira, MD.

TEACHING EXPERIENCE

Meta-Analysis Academy — Brazil
Research Mentor — Jun. 2025 – Present
Mentor students through the full research process of systematic reviews and meta-analyses, from question formulation and protocol registration to data extraction, statistical analysis, and manuscript preparation. Provide weekly feedback, ensure methodological rigor, and support mentees toward first authorship. Mentor: Rhanderson Cardoso, MD.

Teaching Assistant — Jun. 2025 – Mar. 2026
Ran weekly support sessions addressing students' methodological questions and reinforcing research concepts from the week's classes. Mentor: Rhanderson Cardoso, MD.

HONORS AND AWARDS

Best Abstract, Head and Neck Session, Society of Robotic Surgery Annual Meeting — Fort Lauderdale, FL, 2026
Endoscopic Thyroidectomy Vestibular Approach versus Open Thyroidectomy for Graves' Disease: A Systematic Review and Meta-analysis.

Outstanding Author, Journal of Thoracic Disease — 2026
Recognition for Parallel-bar versus cross-bar configurations in the Nuss procedure: a systematic review and meta-analysis.

ESTS–SBCT Award — Athens, Greece, 2026
Best paper presented by a member of the Brazilian Society of Thoracic Surgery (SBCT) at the European Society of Thoracic Surgeons (ESTS) annual meeting, for the same study.

1st Place, Oral Presentation, SOBED Days 2025 Campinas, Brazil

Intragastric Balloon for Obesity Treatment: A Systematic Review and Meta-Analysis of Randomized Controlled Trials.

UEG Week 2025 Travel Grant (€500) Berlin, Germany

Awarded to present Intragastric Balloon for Obesity Treatment: A Systematic Review and Meta-Analysis of Randomized Clinical Trials.

Editor's Choice and Cover Feature, Gastrointestinal Endoscopy Apr. 2025

Endoscopic submucosal tunneling techniques versus flexible endoscopic septotomy for Zenker's diverticulum: a systematic review and meta-analysis. Selected as Editor's Choice and featured on the journal cover.

2nd Place, Free Topic Oral Presentation, SBAD 2024 Salvador, Brazil

Endoscopic Submucosal Tunneling Techniques versus Flexible Endoscopic Septotomy for Zenker's Diverticulum: A Systematic Review and Meta-Analysis. XXIII Brazilian Digestive System Week.

SKILLS

Systematic review and meta-analysis: pairwise, network, Bayesian, and single-arm; individual patient data reconstruction

Statistical analysis in R; trial sequential analysis; dose-response modeling

Languages: Portuguese (native), English (fluent), Spanish (intermediate)
